

Springfield High School Security Policy

1. Unauthorized Access

Any individual found on school premises without a valid visitor badge or student ID is considered unauthorized.

Security personnel must immediately approach the individual, request identification, and escort them to the main office.

If the individual refuses to comply or flees, security must initiate a Level 2 lockdown and contact local law enforcement.

2. Fire Emergencies

In the event of a fire, all staff and students must evacuate immediately using the designated fire exit routes posted in every classroom.

Do not use elevators. Assemble at the South Football Field. Teachers must take attendance and report missing students to the Principal.

3. Visitor Management

All visitors must check in at the front desk. They must provide a valid government ID, state their purpose of visit, and wear a red visitor lanyard at all times.

Visits are strictly restricted to the areas related to their stated purpose.

4. Medical Emergencies

If a student or staff member requires immediate medical attention, the school nurse must be notified immediately at extension 911.

Do not move the injured person unless they are in immediate physical danger.
